For more information
to participation:

Joint meeting of German DFG-funded CRC research consortia and their graduate schools focussing on cardiac, vascular and kidney research.

October 9th : Graduate training day and hot topics from CRC consortia on cardiac, vascular and kidney research.

October 10th : Importance of collaborative cardiac, vascular and kidney research, with representatives from politics and the DFG, keynote scientific speakers and a podium discussion with participating CRC speakers.

What?

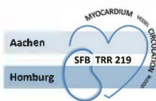

Increase awareness of

- the high burden of cardiovascular and kidney diseases
- the clinical importance of cardiac, vascular and kidney research
- the importance of collaborative research consortia

Increase national cooperation and exchange of expertise on scientific, technological and training level

Why?

By whom?

With support of the German Research Foundation (DFG)

For whom?

Members of the participating collaborative research consortia and everyone interested in cardiac, vascular and kidney disease

Where?

Kap Europa
Kongresshaus der Messe Frankfurt
Osloer Str. 5
60327 Frankfurt am Main
Germany
